REASONS FOR ALLOWANCE

Examiner acknowledges a submission of the amendment and arguments filed on February 3, 2004. Claims 1 – 22 are amended. Amendment and arguments have overcome rejections under 112, 2nd paragraph, 102 (b) and 103(a).

The following is an examiner's statement of reasons for allowance:

An amended independent Claim 1 discloses, inter alia, the secondary circuit breaker and the secondary control means for enabling opening of at least one secondary breaking device if a current flowing in said breaking device is lower than a preset opening current threshold. The closest reference for the claim is Baumann et al., which disclose the system similar to the claimed. However, Examiner agrees with the Applicant that the Baumann reference does not perform an identical function specified in the claim in substantially the same way and does not produce the same result as the corresponding element in the Specification.

Regarding amended Claims 20 and 22, they rephrase the same limitation of Claim 1 requiring the secondary circuit breaker being enabled to disconnect the power line only when it detects the current lower than a preset opening current threshold.

Allowability resides, at least in part, in the above-described limitations, which has not been disclosed in the Prior Art in a search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2836

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The examiner can normally be reached on 8:00 – 4:30. If attempts to reach examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571) 272 – 2800, Ext. 36.
